DETAILED ACTION

Terminal Disclaimer

The terminal disclaimers filed on January 21, 2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of Patent Number 7,310,189 or any patent granted on Application Numbers 10/599,371 or 10/596,761 have been reviewed and are accepted. The terminal disclaimers have been recorded.

Response to Arguments

Applicant's arguments, see page 11, third paragraph, filed January 21, 2008, with respect to claim 1 have been fully considered and are persuasive. The rejection under 35 U.S.C. 103(a) as being unpatentable over Bartels (U.S. Patent Number 6,473,543) of claims 1, 6-8, 10, 11, 15 and 17 has been withdrawn.

Examiner Comments

It should be noted that although the prior art does teach a switchable optical element having discrete states having a first fluid and a second fluid, wherein in the absence of the first fluid, air is considered a second fluid, but not a liquid, the prior art fails to teach such an optical switch comprising electrodes for acting on the fluid system by the application of electrowetting forces.

Allowable Subject Matter

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance: The reasons for allowance are as outlined in the Applicant's Remarks file January 21, 2008, see page 11, third paragraph.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
